

Active Fedora - ToDo # 78: Relationship finders should return an array of ActiveFedora Objects

Status:	Closed	Priority:	Normal
Author:	Matt Zumwalt	Category:	Search/Solr
Created:	12/09/2008	Assigned to:	Matt Zumwalt
Updated:	08/04/2009	Due date:	
Subject:	Relationship finders should return an array of ActiveFedora Objects		
Description:	right now has_relationship creates relationship finders that return solr search results. They should actually return ActiveFedora objects whenever possible (using the active_fedora_model_field to decide which type of object to create.
